+ +

- Either you are using the Azure Subscription provided by Microsoft or using your own subscription (**BYOS**), you and your team are responsible for setting up your environment using [GitHub](https://github.com/microsoft/OpenHack/blob/main/byos/devops/GH.md) or [Azure DevOps](https://github.com/microsoft/OpenHack/blob/main/byos/devops/ADO.md) for provisioning!

- First review carefully and follow steps under *_OpenHack lab environment provisioning_* section from the *_Overview_* page.

+ <div style="background-color:red; text-align:center; vertical-align: middle; padding:30px 0;">

+ **IMPORTANT**: Please do not remove the Opsgility Foreign Principals or User Permissions. Deleting these credentials can cause severe disruption to your hacking.

7	10	## OpenHack lab environment provisioning
8	11	
9	12	This is Bring Your Own Subscription (BYOS) OpenHack. It means you have to do some preparation of the environment before you start working on real challenges.
